He is able to get free steaks for barbeque through a connection in the meat industry.

#### 4.3.2 Joel's speech

- In the past there haven't been very many events. **Joel** would like to have lots of events this semester, providing there is adequate participation. ## 5 Activities Meeting Recap

### 5.1 OMGWTFBBQ

- It was decided that if we have a summer barbeque, we might put ourselves in a bad position financially for Froshweek.
- Last time we had this event, it came to about \$2600 - the security fence was approximately \$700 alone.
- Core funding is going to be 50% less than what it was last year because we did not use it all.
- The SFSS can cover any hard costs, like security and facilities. Any soft costs like food and alcohol would be covered by the CSSS.
- All the work and planning has been done in previous years. Costs will be more or less identical.

## 5.2 Froshweek

- We need to try to get sponsorships in early. **Dave's** timeline puts us in at May 31st for sending out the sponsorship packages.
- The csssfroshweek.ca domain expires in a week. **Chris Parsons** currently holds it, and he doesn't know if he should renew it or transfer it. If he has to transfer it, he doesn't know how to transfer it to Hardeep.
  - Hardeep could backorder it.
  - Alternatively, we could look into sfufroshweek.ca
- Should we look into charging Froshes a small fee?
  - It would encourage people to come to each event
  - People who show up late or can't be there at all will not get a T-shirt.
  - \$5 is an acceptable fee; \$10 is too much.
- We can't count on the same amount of money as we had last year from the school and from the SFSS, but if we can pick up more corporate sponsors by sending out our sponsorship packages earlier, we should be sitting nicely financially.
  - Core funding is being reduced, but funding for events like this is not being reduced.

## 6 Open Floor

- **Dave** moves for some amount of money to be allocated for core funding and asks for **Curtis** to give a specific amount.
- **Curtis** moves to allocate up to \$250 of our core funding for the pop order which will be delivered on May 26th, 2011. **Caitlin** seconds.
  - Motion passes.
- **Curtis** motions to reimburse himself for \$112.10 for the pop he bought for the pop machine on Sunday, May 8th. **Caitlin** seconds.
  - Motion passes.
- **Rich** comes to introduce Bits n Bytes.
  - It will bring up high school students and let them see what we do and get a feel for what it's like here at SFU.

- **Rich** wants to know if any CS students would be interested in volunteering next Thursday from 1-2:30pm to tour 5-7 students through the labs and the campus for one hour. **Rich** will leave some of his business cards for any volunteers to contact him for more information.
- **Caitlin** moves to adjourn the meeting.
  - Motion passes.

*Meeting is adjourned at 3:32 PM.*
